Almost everyone loves a good beach no matter what their relationship status is, but there are certain oceanside destinations where the raucous singles' scene, legendary nightlife, and plethora of attractive members of the opposite sex may well be more popular than their beach itself.

So if you've got no plus one, that's definitely no problem at these sandy spots. Here, we've got the best places to party this summer if you're single. Happy hunting!

Montauk, New York

What was once a sleepy fisherman's town located on the very tip of Long Island is now a certifiable hotspot for hotties willing to make the three-hour trek from Manhattan to "The End."

While the neighboring Hamptons have always had their share of well-dressed people, the vibe in Montauk is decidedly more bohemian and less buttoned up. Start off your night sipping a Dark and Stormy while catching a sunset concert at [The Surf Lodge](#), a hotel, restaurant, and waterfront bar packed with eye candy. Once the stars come out and you're ready to let your hair down for a serious dance party, hit [The Harbor Lounge](#). If dive bars and cover bands are your scene, stop late night at [Memory Motel](#), which was immortalized by the Rolling Stones' song. Cap off your night with a slice from [Pizza Village](#).
